Do you offer any scholarships for domestic students?

Sarah Ryder - 2016-05-18 - Scholarships

Each year a range of scholarships and grants are available to students studying at NMIT. Some apply to specific programmes while others are to assist students who fit certain criteria. All scholarships have specific entry criteria so you will need to check the Terms of Reference to see if you qualify. These scholarships and grants are available for your benefit, to help you achieve your dream, so take advantage of them.

For more information, terms of reference and application forms visit our scholarships page or call 0800 422 733 and ask for the Scholarship Coordinator.

External Scholarships

External Scholarships, grants and awards are another great way of funding your tertiary education. Visit our scholarships page for information about what's out there and how to get it, along with some links to get you started. Any external scholarship you obtain will not affect any NMIT scholarships you wish to apply for.
