

Is the internship the same if I study in Auckland or in Nelson?

While the internship is offered to international students studying at Nelson campus and Global campus in Auckland, the structure varies as outlined below:

Students studying in Nelson/Marlborough

All students on Nelson campus and Marlborough campus study full time, therefore you will need to complete the internship over four to six weeks full time at programme completion, with the duration specified by the employer.

Students studying in Auckland

Most students studying on Global campus have classes two days per week. This means you can work your internship in two ways:

- Ten weeks unpaid internship alongside your study commitments. This works out to be approximately equivalent to two days per week OR
- Three weeks full time unpaid internship, worked in a one week block during study break and a two week block at the end of your programme.
