How do I find work?

Sarah Ryder - 2022-09-06 - [Living in New Zealand](#)

Before beginning to search for employment, it is a really good idea to settle into your studies

This is because after a few weeks of study, you will understand your study workload and will be able to find a job that will fit around your timetable and course work. You will also get to know other students who may be able to offer advice on where to find work.

Some popular places for finding work

The work that you find might not necessarily be related to your course. Jobs in retail and the service industry often have greater flexibility in terms of being able to work at the weekends and in the evenings. These are places that other students have found part-time employment:

- Fast food outlets such as McDonalds and Burger King
- Supermarkets
- Petrol stations
- Restaurants
- Retail stores
- IT companies
- Resthomes
- Seasonal employment in the horticulture industry.
