

Accessing Adobe Apps on NMIT Lab and Open Access PCs

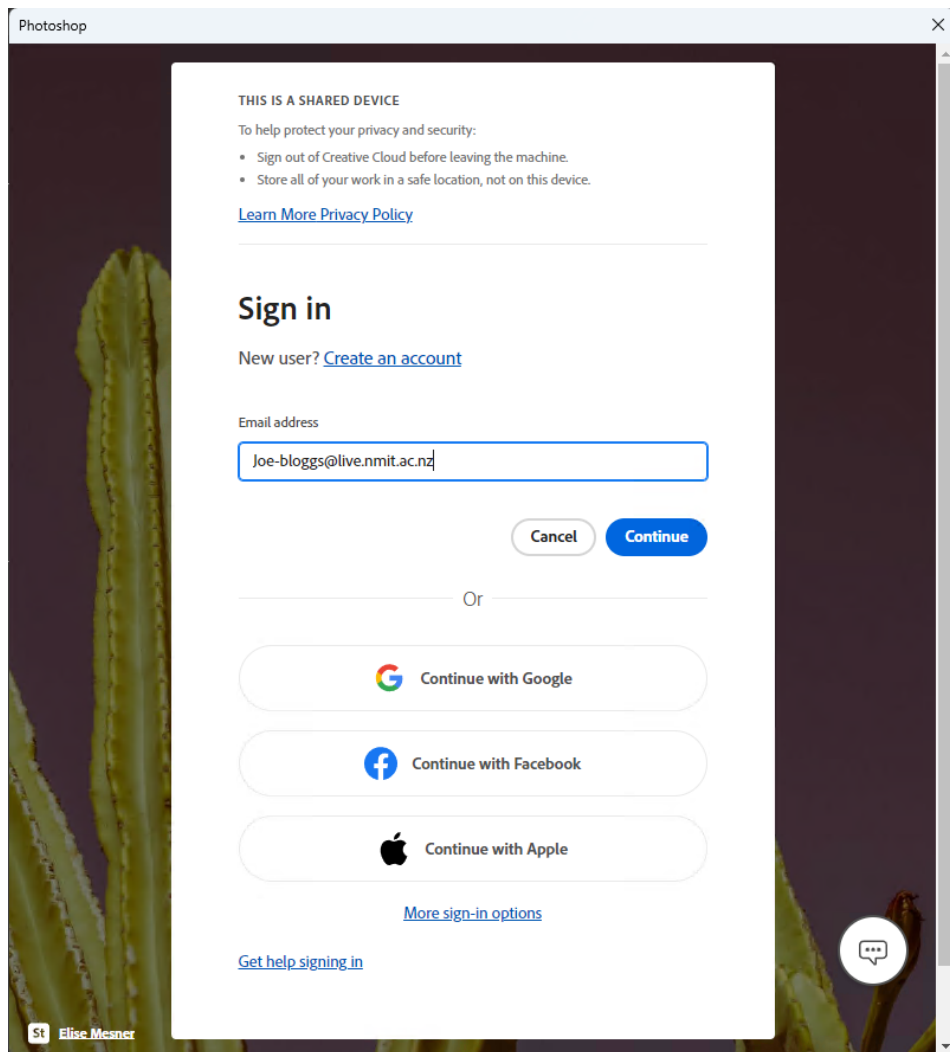

helpdesk@nmit.ac.nz - 2025-07-24 - [Software](#)

All Adobe applications are currently available for NMIT students to use **ONLY** on lab and open access computers.

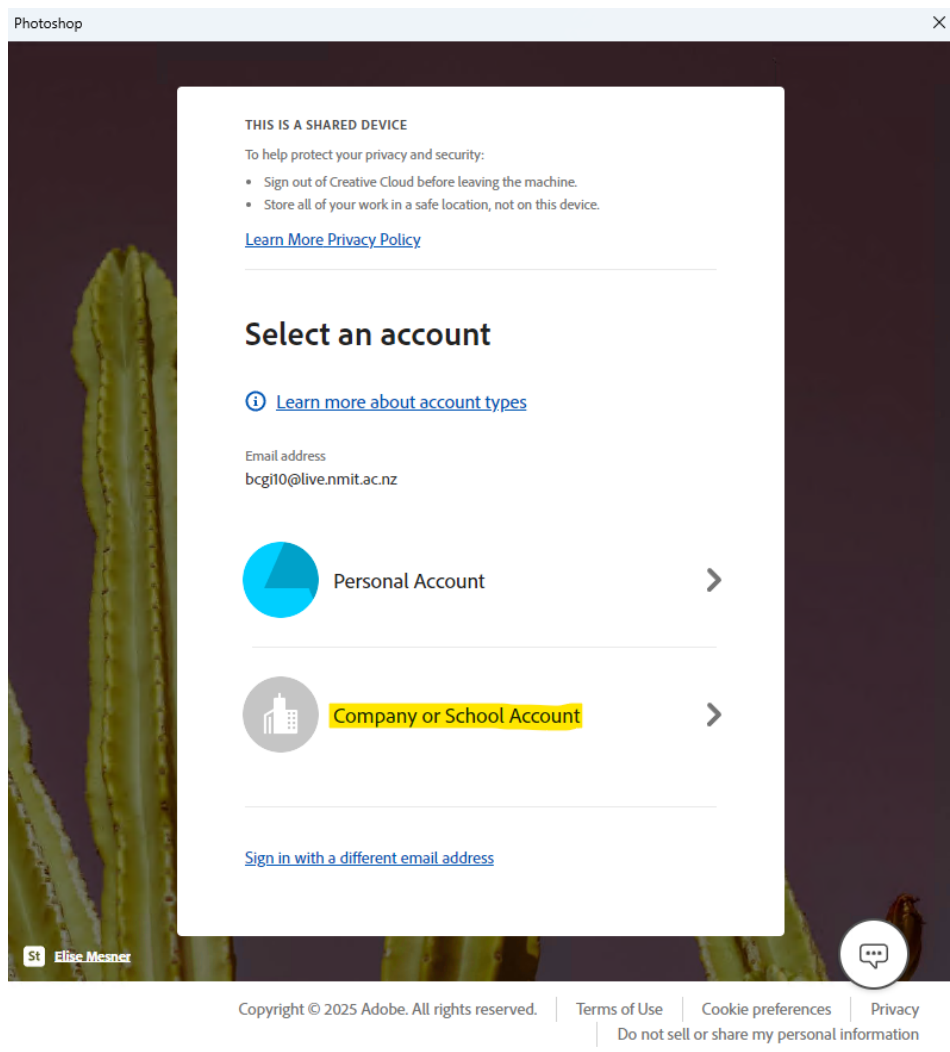

Students will **not** be able to install or use Adobe apps on their personal devices using their NMIT email accounts.

Follow these steps to get started:

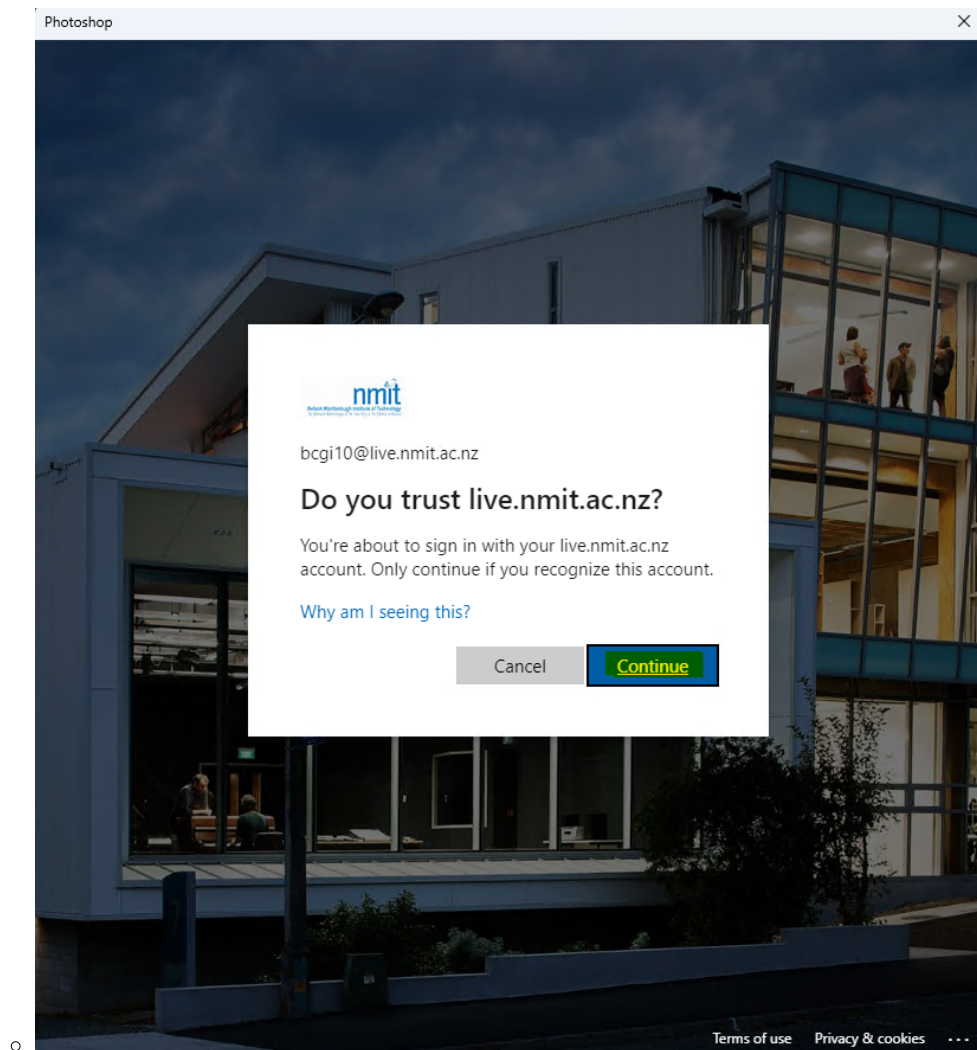

1. **Log in** to a lab or open access PC using your NMIT credentials.
2. **Open** any Adobe application you wish to use.
3. When prompted, **sign in** to Adobe.
4. Enter your NMIT email address (e.g., joe-bloggs@live.nmit.ac.nz).

5. Select **"Company or School Account"**.

6. Click **“Continue”** to proceed.

Note:

If you already have a personal Adobe ID and prefer to use it, select **“Personal Account”** instead at Step 5.

Sorry, **Adobe’s AI** features are currently **unavailable** on **campus PCs** with “Adobe Shared Device Licenses”.
