

Android, iPhone, iPad or for a Windows laptop - Install "geteduroam" app

IT FAQs - 2023-11-22 - eduroam | Free Campus Wi-Fi

Android, iPhone, iPad or for a Windows laptop

To download the geteduroam app, your device **needs to be connected to the internet**. This is best done when you are on-campus

[eduroam Coverage map](#)

Install [geteduroam](#) app from your app store and follow the instructions below. Instructions are lot similar to all devices e.g., iOS, android and Windows

Open the **geteduroam** app and search for "Nelson Marlborough Institute of Technology | Te Pūkenga " and select the correct profile click OK.

Use your current NMIT email address and password to authenticate and go "Connect to network" Allow and Join

Now you will see your Mobile phone is connected to **eduroam** Wi-Fi network.
