Can I smoke on campus?

Sarah Ryder - 2021-04-22 - [Student life](#)

No. We are committed to providing a positive, healthy learning environment. For this reason, all of our campuses are totally smokefree and have been since 1 January 2010. This applies to staff, students and visitors. Smokefree includes vaping, the use of e-cigarettes or any other apparatus which vaporizes substances for the purpose of inhalation.
