

Connect to NMifi - Windows Devices

Connect to NMIT Wireless using Windows Devices

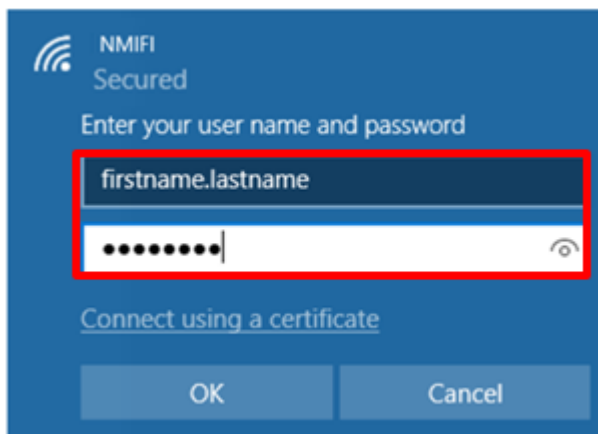

1. First Connect to **NMifi**

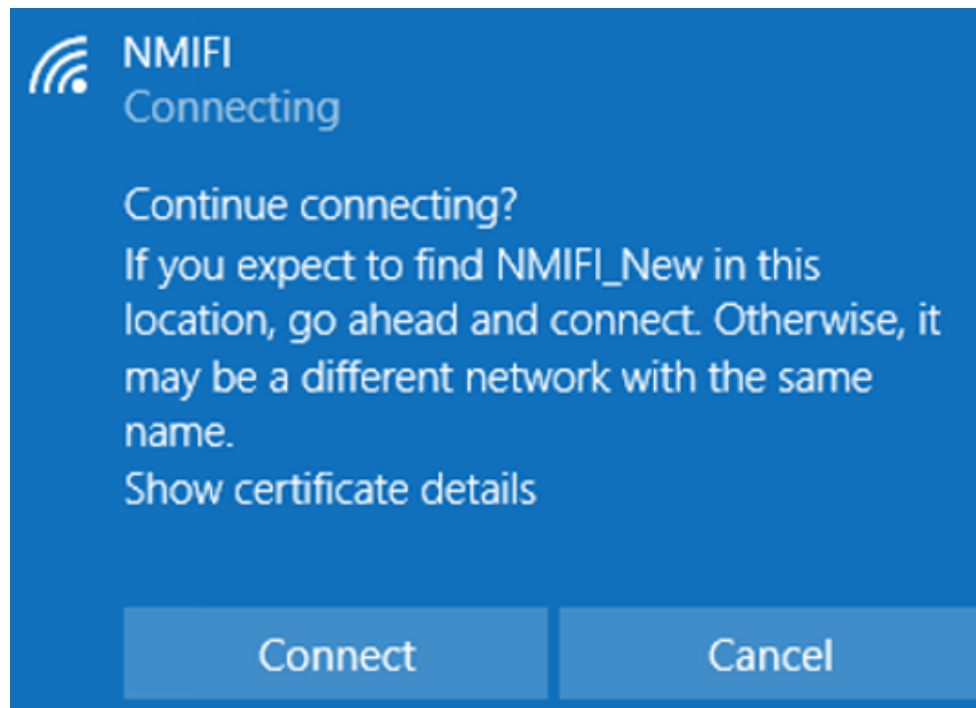

2. NMIT User option will ask you to provide your NMIT Username and the Password to continue.

(Format of the username – Student: **Firstname-Lastname** | Staff:

Firstname.Lastname)

3. Correct username password will take you to this step which you will need to Trust the certificate

4. Now your device should be connected to the NMIFI network.
