How do I get the best technology setup at home for online learning?

Olly - 2020-04-09 - Online Learning

Three factors will have the biggest impact on your experience:

Your computer / mobile device

- the newer the better
- the more regularly updated and restarted the better

How do I ensure my computer is good for online learning?

Your internet connection / data plan

- the more data the better
- Fixed line broadband, fibre in particular, is best

What's the best internet connection / data plan for online learning?

 How well they work together, e.g. how your home Wi-Fi is setup, is pretty important too.

How do I ensure my home Wi-Fi is good for online learning?
