

How long can I use my student locker on the Nelson campus?

If you have been studying on the Nelson campus during the year, it is best to clear your locker before the graduation ceremony day.

In the first week in January, when NMIT reopens, all padlocks are removed and any items left in lockers are disposed of to make way for new students.

If you are a summer school student wishing to use a locker during the time classes are running for summer school. You will need to mark your locker with a red dot.

Red dots are available from the front desk of the Library Learning Centre or Applied Business Reception in K Block.
