

What are the basics to stay safe online?

helpdesk@nmit.ac.nz - 2019-08-20 - Stay Safe Online

You are a target – bots & malware don't distinguish people, they just look for weaknesses

- Think before you click
- Steer clear of illegal stuff
- Keep software up to date
- Keep anti-virus up to date
- Protect / backup your data
- Beware of suspicious emails
- Practice good password management
- Don't leave devices unattended & unlocked
