

## What are the bring your own device (BYOD) specifications?

Our Computing and Information Technology, and Animation and Computer Generated Imagery programmes require you to bring your owned device “BYOD” for your study at NMIT.

### **Requirements for [Computing and Information Technology](#) programmes:**

- [Postgraduate Diploma in IT Security Management](#)
- [Bachelor of Information Technology](#)
- [Graduate Diploma in Information Technology](#)
- [Diploma in Information Technology Technical Support](#)
- [Diploma in Web Development and Design](#)
- [Certificate in Information Technology](#)

### **The minimum specifications we require are:**

- Windows 10 operating system
- Intel i5 or AMD A8 processor
- 8GB of memory
- 500GB+ hard drive
- 1Gbps Ethernet port
- 802.11n wireless

Discrete graphics are not mandatory but are strongly suggested as there are several aspects of the degree which can require considerable graphics power.

### **Optional items include:**

- optical drive (DVD)
- web cam

*Can I use an Apple product?*

Across our programmes, we use Microsoft Windows based applications. As such we can only sanction Windows based laptops for use on the degree. Please be aware however, that you will not be able to login to our network using an Apple laptop.

### **Requirements for [Animation and Computer Generated Imagery](#) programmes:**

- [Bachelor of Computer Generated Imagery](#)
- [New Zealand Diploma in Animation Level 6](#)
- [New Zealand Diploma in Animation Level 5](#)

**The minimum specifications we require are:**

- NVIDIA® GeForce® GTX 1060 OC with 6GB GDDR5
- 32GB RAM,
- 256GB PCIe M.2 SSD
- 1TB 7200RPM HDD
