What are the bring your own device (BYOD) specifications?

Olly - 2024-09-20 - Devices

Our Information Technology programmes require you to bring your own device/laptop (BYOD) in order to complete your studies.

BYOD specifications for **Computing and Information Technology** programmes

The following BYOD specifications are required for:

- Bachelor of Information Technology
- Graduate Diploma in Information Technology
- Certificate in Information Technology
- Diploma in Information Technology Technical Support
- Diploma in Web Development and Design

The minimum specifications we require are:

- Windows 11 Operating System, or Windows 10 Operating System but this will not be supported by Microsoft from October 2025.
- Intel i5 or AMD A8 processor
- 16GB of memory
- 500GB+ hard drive
- 1Gbps Ethernet port or purchase adapter if needed for network courses
- 802.11n wireless
- Webcam
- SSD - 128GB Internal SSD

Discrete graphics are not mandatory but are strongly suggested as there are several aspects of the degree which can require considerable graphics power.

Can I use an Apple product?

Current NMIT guidelines do not support the use of Apple products for our programmes.

BYOD is not required for **Diploma of Animation or Bachelor of Computer-Generated Imagery** students:

However, if students do wish to purchase their own laptop the Specifications are**:**

The minimum you require is:

- NVIDIA® GeForce® GTX 1060 OC with 6GB GDDR5

- 32GB RAM
- 256GB PCIe M.2 SSD
- 1TB 7200RPM HDD
