

What are the Internship with Study terms and conditions?

You should be aware of the following when considering applying for the Internship with Study:

- Internships will be arranged in the city where you completed your studies; Nelson or Marlborough.
- Internships are subject to availability with a suitable employer.
- NMIT will endeavour to match your programme of study with a relevant internship opportunity.
- Where NMIT finds an internship for you and you decline, then NMIT is not obliged to search out an alternative internship.
- If you are currently working or in an internship you have already found for yourself, NMIT will prioritise students who don't have work or an internship first.
- NMIT will do our absolute best to secure an internship that meets your requirements, however this is not always possible. There is no guarantee an internship will be able to be found that fits with your current paid or unpaid work.
- Internships must be applied for, via your Programme Co-ordinator, within one month after successfully completing your studies.
