

What does it mean to receive 'no gifts, payment or reward' for an internship?

Unlike a paid internship, which focuses more on the needs of the employer, the main focus of the **Internship with Study** is you.

It is designed to expose you to a real world work situation, help you develop your skills and provide you with a reference letter for use in the future. We encourage you to view the Internship with Study as an investment in your chosen career which is why cash payments, gifts or vouchers for the work completed are not given.

It is not appropriate to ask for any form of payment, gifts or vouchers in exchange for your internship.
