

What is an LNAAT assessment?

Sharon Thomas - 2023-11-02 - Study and learning

The Literacy & Numeracy for Adults Assessment Training Tool (LNAAT) is a diagnostic tool that provides a way for tutors to identify your skills in reading and/or math and/or listening, and then, accommodate any identified learning needs, and track your progression.

The Tertiary Education Commission (TEC) requires Te Pūkenga NMIT to ensure:

- All students enrolled in Level 1–3 courses and programmes complete initial and progress LNAAT assessments for reading and/or numeracy.
- ESOL and supported training/vocational studies students complete Starting Points assessments for reading and/or listening.
