When I finish my course can I still access Office 365?

IT FAQs - 2022-01-12 - Office 365

After your course ends, your NMIT network login will remain valid for one month after your course finish date.

During this month you can access the NMIT network and services including, WiFi, printing, Moodle and Office 365.

This will give you enough time to make a backup of all your files stored in your OneDrive.

If you re-enrol within 3 months, your account will be restored along with your Office 365 access and previously stored data.
