

Who can see the material I store on the computer network?

Rachel Rees - 2024-12-22 - Using campus computers & printers

Information Technology Customer Services (ITCS) reserves the right to review, at any time, any material you store. Any material that, at the discretion of ITCS, is considered to be inappropriate will be deleted and you will lose access to the network for a period of time. A record of all Internet pages that you download is stored through the NMIT Network.
