

Can I transfer to another institute once I have started studying?

Sarah Ryder - 2022-10-10 - Studying

Once you have started your studies at NMIT, you are not eligible for a refund.

If you wish to transfer to another institute, you need to apply for another student visa for that institute.

You cannot use your NMIT student visa to study at that institute.

It is best to discuss your study options with us before you make the decision to change institutes to enable us the opportunity to provide you with advice.
